TO ALL OUR CUSTOMERS

Object: Certificate of preferential origin in accordance with EU-regulation 3351/83
(long-term supplier declaration)

In regard to long-term supplier declaration according to EU-regulations we would like to inform you that our products have EEC and non-EEC countries origin.

Due to our wide range (more than 1.000 different items) it is almost impossible to separately handle and also store all items with origin in non-EEC countries.

Moreover the supplier declaration procedure is required for exports in non-EEC countries only.

We only can issue a certificate of preferential origin on demand and on a case-by-case basis for products that are clearly originating in the EEC.

Due to a.m. reasons we are not in the position to launch general supplier declarations.

We hope for your understanding.

Yours sincerely
